Sweet spot

There's a dog barking somewhere down the road
And my neighbour seems to be in a bad mood
As he turns on the engine, Slams the door
And disappears in a roar
I guess we all have days that we rather stay asleep.

But there's always something that wakes us up

Gm Am Bb C

And go chasing that sweet spot
(Better run, better run, better run, better run)
Let's go for that sweet spot
(Better run, better run, better run, better run)
Yeah, let's go for that sweet spot
(Better run, better run, better run, better run)

F Am Bb C

It's not easy to get a life these days
You got to be dull and sharp at the very same time
To be there like a hum from the fridge
All the time
I mean, just as present as I needs to be missed when you're gone

And there's always someone there who seems

To reached that sweet spot
(Better run, better run, better run, better run)
Who got to that sweet spot
(Better run, better run, better run, better run)
Yeah, who's at that sweet spot
(Better run, better run, better run, better run)

Well, we got into school
Filled with hopes
Walked through it
With our necks in ropes
Graduated in champagne
work in vain
And the messages kept on coming through

Tried to find

You got to go for that sweet spot
(Better run, better run, better run, better run)
Go for that sweet spot
(Better run, better run, better run, better run)
Yeah, Go for that sweet spot
(Better run, better run, better run, better run)

To live in a paradise, well it ain't easy
It's like you have to sign a contract with the devil himself
And you do the negotiation
For the permits by yourself
I guess that's why you're never satisfied at the end of the day

So you wake up every single day

Just to chase that sweet spot
(Better run, better run, better run, better run)
Let's go for that sweet spot
(Better run, better run, better run, better run)
Yeah, let's go for that sweet spot
(Better run, better run, better run, better run)
