### **Touched by the light**

Empty my glass

Dm Am C G

I don't need it anymore

That's for sure

That's no cure

For this restlessness

That's always here

Drink up my wine

Cause I feel kind of affected tonight

There's a full moon shining bright

Over that mansion on the hill

( Mansion) ( On the hill)

That's kind of funny how it appears

And disappears

Over the year

If you think about it ( It's still there)

But why should you?

But I'm touched by the light

F Am G

( That's just your sentimental mind)

I'm just staying here tonight

( That's just your way of staying blind)

Intending to sit here through the night

( Why don't you leave this town behind)

Cause I'm touched by the light

F Am G C F D

Empty my glass

I don't need it anymore

That's for sure

That's no cure

For this restlessness

That's always here

You know we talk about

Getting out

Somewhere

Anywhere

But we're stuck to this spot

Or should I say me

But I'm Touched.....
