

Lay back, lie low till tomorrow

I met Alicia in Austin,
she said "I come from Toronto"
We seemed to get along quite well,
Decided to take a trip down to Mexico
So we bought two tickets and a phrase-book
Learned as much Spanish as we could

We got on the coach that would take us down
To San Antonio
As we rode through the state of Texas I said:
We're far away from home
She pouted her lips and looked real hurt
I said "I don't mind that it's just feeling that occurred"

So, lay back, lie low untill tomorrow
There ain't no way you have to lour
Soon we'll be dancin'
Drinkin' wine, feelin' fine
And there ain't no way we'll feel any sorrow

So we got to Guarrajuato,
though it took a while to get there
We liked the way of livin' easy
It was much more "laissez faire"
And we strolled the alleys side by side
I must admit it, I felt good inside

And we sang, lay back, lie low ...

Well, we sat down at a bar
A band was packin' up for a show
Soon a piano started playing
really soft 'n low and slow
and then the other musicians fell in
And yeah, the dance did begin

I took Alicia by the hand
Said: "May I have the first and the last"
She stood up, smiled and nuddled said
"Yes! if you don't move to fast"
And we danced all night as true friends do
And the band was playin' all night through

I'll remember it all the time

I spent my last pence on diet Coke
Doesn't make sence
They didn't have anything else to serve
Them boys playing Blue Train
Dreaming the night away, listening to Coltraine
I just closed my eyes for a while

Closed my eyes
Heavy eyelids, hid my irises
Took a deep breath
Felt the air, Through my nostrills
Felt satisfied
You know that feeling, Well don't you?
Caught in this moment
I'll remember it all the time

I flicked some scraps of bread
Flicked it off the table
Flicked it on the ground
Guess I was bored in a positive way
Folded a tissue once
Took it to the corner
Of my mouth
Leaned my head against the hand

Leaned my head ...

I payed the bill for the Coke
Left the open-air Café
Felt like a joke
You know sometimes you feel so stared at
It's like you're the monkey
That everybody knows
But you don't know anyone
I didn't really care, so I just walked away

Walked away...

Impossible positions

I said, I love you, I wanna be with you
You said, let's be just friends,
that's the way I want it to be
Well, we can't be just friends so
Goodbye, Goodbye, I'll never see you again

I miss you sometimes, I miss the laughs that we had
I miss you sometimes, laying on the kitchen floor
Listening to records playing blue, saying
Goodbye, Goodbye, I'll never see you again

Sure it's cracking me up but whatever
I won't let that break me down
Sure It's easy to say it means nothing to me
That I'll get my feet back on the ground
But I will
Sure I will
Said I will
Yes I will
forget about you
You'll just be like faded Kodacholor to me

I'll never write you a letter, not a single word will I write
I'll never dial your number, even if i have it in mind
I'll never do it cause I said
Goodbye, Goodbye, I'll never see you again

I said, I love you, I wanna be with you
You said, let's be just friends, that's the way I want it to be
Well, we can't be just friends so
Goodbye, Goodbye, I'll never see you again

KJ

KJ took it easy, you know
He would do anything
Just to keep himself satisfied
"They can boss me 'tween eight and five
But the rest of the hours
It's up to me to decide

Everything can pass
The magnifying glass
If you don't use it
Let's have a lot of fun
And leave a lot of work undone
At the end of the day
Well who cares
Not me anyway

KJ taught me how to bowl
Said "move to the right
You'll do the first strike of your life"
Well we watched them cones go down
Yelled, high five,
"That ball cuts like a knife"

Everything can pass
The magnifying glass
If you don't use it
And we had a lot of fun
And left a lot of work undone
At the end of the day
Well who cares
Not me anyway

KJ taught me what it means
To be let down by someone
Who was much more than everything
He didn't show up one day
Too much wine, too much booze
Too much of everything

Nothing can pass
The magnifying glass
If you use it
And I have a lot of fun
And leave no work undone
At the end of the day
Who cares 'bout KJ
Not me anyway

I refuse to lay me down ('til I know it's over)

I refuse to lay me down 'til it's over
I refuse to break down and cry
As long as there's a light
that shines in your window
As long as I can see the light

I refuse to close my eyes til it's over
There ain't no way I'll see the sun go down
What I feared has happened
What I dread for has reached me at last

I went down to the Holy river
A cold wind made me shiver
Got to do things to get away
from the wind

I refuse to kneel til i know it's over
I refuse to think any thoughts bout defeat
As long as I can hold you in my arms (dear)
As long as I can feel you breath

I went down to the Holy River
Got to put myself together
I have to be strong to get
Through this wind

I refuse to lay me down till it's over
I refuse to break down and cry
I'll stand by your side forever
We'll get through this thing, you and I

And we'll go down to the Holy River
You and me we will endeavour
To do the things that will keep us
Away from the wind

Don't blame it on anyone

I woke up with a restless mind
On my way to heaven, yeah rise and shine
Someone said, it won't go your way
Don't blame it on him
Don't blame it on her
Don't blame it on me
Don't blame it on anyone

I walked on, got blisters on my heels
Them blisters can hurt
You know how it feels
Like brand new shoes, too small for your toes
Don't blame it on them
Don't blame it on you
Don't blame it on me
Don't blame it on anyone
Cause it's up to you to be prepared
It's not 'bout luck
It's just up to you

I woke up with a restless mind
On my way to heaven, yeah rise and shine
Someone came and
Tried to put me down
Don't blame it on him
Don't blame it on her
Don't blame it on you
Don't blame it on anyone

Everybody wants to jump sometimes
It's a giant step for everyone
They lend you a hand
Just to drag you down
Don't blame it on him
Don't blame it on her
Don't blame it on you
Don't blame it on anyone
Cause it's up to you to be prepared ...

I woke up with a restless mind
On my way to heaven, yeah rise and shine
Someone said
You look tired today
Don't blame it on her
Don't blame it on him
Don't blame it on you
Don't blame it on anyone
Cause it's up to you to be prepared.....

I want you (just like Dylan said)

Short skirt and a heavy coat
She said, I wear it all for you.
That's what I wore the first time I saw you.
Summer skirt, December night
Seems alright, hold me tight
She said, I blow away the cold if you want me to.

Cause I want you
Oh I want you
Just like Dylan said
Oh so bad.

She said, I've suffered and I have laughed
I've dreamed 'bout you, you're all I had
And now when I see your eyes
Smile towards mine
He said, I guess I felt the same
Standing there in the rain
Dialing your number,
Again And again and again and again

Just Because I want you ...

He said, I worked night all week long
And I really liked that song
I stopped working you know
Just listening to the radio
Stood there at the machines alone
Dreached in sweat and silicone
You know it helped me through
That song on the radio.

Better be home soon
Better be home soon
Yeah, you better be
home soon

Cause I want you ...

There's a sparkle in your eyes
Well, I don't know how to say it
It is so hard to explain
It's like sparkling water
In my arteries and veins

There's a sparkle in your eyes
That makes me fly
Into your paradise

I thought it was over
But I'm down on my knees
Your eyes are following me
It's all that I see

There's a sparkle in your eyes ...

Well listen now honey,
I can't get no rest
We're together in daytime
But the night is the best

There's a sparkle in your eyes ...
There's a sparkle in your eyes ...

My lips are burning hot

It's the memory of you
That is what your lips
Do tattoo

Every night Every night Every night

Well, please be my doctor
Come and give me medicine
My head is just spinning
Be my Novocain

There's a sparkle in your eyes ...

Yeah, you know I can make it
Though I'm under strain
My heart is beating to fast
It's a pleasant pain

There's a sparkle in your eyes ...
